9286 DermaVisage Crystal Option Only

£2,250.00

9287 DermaVisage 3 in 1 Microdermabrasion

£3,450.00

Carlton Peel Professional

- Improves the skin's regenerative capabilities and better still, control specific skin conditions
- Works using a "closed system". This means that crystals flow only when the hand piece is applied to the skin
- This ensures absolute safety when using the machine, especially when treating areas close to the eyes
- Works using a controlled flow of ultra clean aluminium oxide crystals set in motion by vacuum created low pressure
- The crystals are applied to the skin with a special hand piece which allows the controlled and gentle removal of the dead cells from the Stratum Corneum of the Epidermis
- The same hand piece removes the used crystals and skin particles in a single process and deposits them in a separate container. Being absolutely inert there is no risk of crystal related side effects. The flow of crystals and the depth of peeling is perfectly controllable

- **Supplied complete with:**
 - 1 x 2kg Crystals
 - 1 x 5 Packs Hydrobeads
 - 1 x 20 Packets of treatment heads
 - 1 x 200ml Enzymatic Peeling Paste
 - 1 x 200ml Pre Peel Lotion
 - 1 x 500ml Post Peel Lotion
 - Size: 33 x 42 x 23cm
 - Weight: 14kg

9284 Carlton Peel Professional

£3,995.00

Carlton Baby Peel Professional

- This baby version of the Peel Professional uses aluminium oxide crystals in disposable sealed crystal cartridges combined with vacuum created low pressure
- As the crystal cartridge is sealed there is no risk of contamination from the new crystals to the used crystals
- deal for mobile use this lightweight machine can be combined with the Peel Professional product range in order to perform Basic, Regenerative Microdermabrasion, Acne and Scar Tissue treatments

- **Supplied complete with:**
 - 2 x 900g Sealed Crystal Containers
 - 1 x 10 Sets of treatment heads
 - 1 x 200ml Enzymatic Peeling Paste
 - 1 x 200ml Pre Peel Lotion
 - 1 x 500ml Post Peel Lotion
 - Size: 29.7 x 29 x 25cm
 - Weight: 7.5kg

9285 Carlton Baby Peel Professional

0563 Ultraderm – High Frequency & Galvanic CC2312 £810.00

Carlton Body Galvanic CC2313

- Comprehensive multi-outlet unit for all professional treatments
 - It has four independent outlets each with a digital read out monitor
 - The unit is supplied complete with 8 body electrode pads having specially manufactured triple sponge pouch covers to eliminate any risk of galvanic allergy
 - Also supplied with all connection leads and a set of elasticated body straps
 - Dimensions: 28 x 20.5 x 14 cm
 - Weight: 1.8kg
- Supplied complete with:**
- 1 x Set Elasticated Body Straps
 - 8 x 100mm Electrode Pads
 - 4 x 1700mm Connecting Leads
 - 8 x 120mm Sponge Pouches

Carlton Faradic CC2310

- A totally transistorised passive muscle exerciser with 10 outlets feeding 20 electrode pads
 - Each outlet has an individual intensity control
 - Advanced specification allowing the operator to not only select the duration of each contraction and relaxation, the frequency and the intensity but also to vary the pulse width giving far greater performance and a higher level of client comfort
 - The operator can select from four pulse sequences giving either positive or mixed contractions on a regular or intermittent basis
 - Fitted with a digital countdown timer also allows the therapist to see easily the duration of treatment time left
 - For complete safety and comfort the CARLTON faradic has a reset button which prevents its use unless all controls have first been set to zero
 - This reset circuit connects to a remote control client alarm to switch off the apparatus and sound a buzzer
 - Dimensions: 38 x 25.5 x 17.5 cm
 - Weight: 5.1kg
- Supplied complete with:**
- | | |
|---------------------------------------|------------------------------|
| 2 x 25mm Facial Electrodes and Holder | 10 x 1700mm Connecting Leads |

0565 Faradic CC2310

£995.00

Carlton Chroma Visage CC2320

ChromaVisage features a specially designed programme which uses pre-set, times variable wave forms during the treatment. Facial contour lifting is achieved by re-programming the underlying muscle fibres.

Colour Therapy, utilising LED lights, is a non-invasive treatment that activates skin cells with pulses of low-level, non-thermal light energy. Stimulating intercellular communication results in cell rejuvenation.

Colour Therapy & Microcurrent

- Introduce a New Results Driven Treatment
- Improve the Profitability of your Salon
- Increase your Turnover
- Features the renowned Ultra Visage micro current
- Includes Desincrustation and Iontophoresis
- Chromatherapy – four colours – four pulsed modes
- Quality at an affordable price
- British Made

Chromatherapy – four colours – four pulsed modes

Carlton Chromapeel CC2315

ChromaPeel features Diamond Dermabrasion using rotational diamond encrusted tips. Easy to use, no mess and low maintenance. A fantastic anti-ageing treatment leaving the skin feeling soft, silky and looking radiant. Used as a one off treatment or as a regenerative course. Also includes Brush / Sponge cleansing and Colour Therapy. Ideal for Facials, manicures and pedicures.

Colour Therapy, utilising LED lights, is a non-invasive treatment that activates skin cells with pulses of low-level, non-thermal light energy.

Diamond Microdermabrasion & Colour Therapy

- Latest innovative treatments
- Results driven anti-ageing
- Chromatherapy – four colours – four pulsed modes
- Increase your profit and turnover
- Lets your salon stand out from the others
- No crystals – no vacuum
- Low maintenance
- British Made
- No ongoing consumables

Chromatherapy – four colours – four pulsed modes

3388 Chroma Visage CC2320

£1,395.00

3387 Chromapeel CC2315

£1,550.00

Carlton ChromaSolo

The Colour Therapy treatment stimulates the skin's cells to facilitate change. The inclusion of four colours (red, green, blue and yellow) using LED lights and set at varying wavelengths offers a wide range of benefits. For example, green cools and reduces redness, blue reduces swelling and offers antibacterial effects for the treatment of acne, red rejuvenates and stimulates the lymphatic system, whilst yellow tones and smoothes the skin, as well as promoting the production of collagen.

Four pulsed modes are also included which allow the wavelengths to penetrate the skin at different levels. A highly versatile treatment, Colour Therapy can be incorporated into any treatment from Dermabrasion to a massage.

8311 ChromaSolo £395.00

Carlton Portable High Frequency CC2345/HF

- This portable electronic high frequency unit is ideal for the mobile therapist, the vanity case having been constructed with spring clips in the recess of the lid to hold and protect the six electrodes that are supplied
- The sophisticated high frequency current changes 200,000 times per second and the electronic circuitry safety intensifies the voltage up to 150,000 volts with minimal amperage
- Because of this rapid oscillation there are no muscular contractions and the effect produced is either stimulating or soothing dependant on the chosen method of application
- Carlton high frequency treatment is of tremendous benefit, its primary action being thermal, to produce heat. The current aids the deeper penetration of products and has a marked germicidal action on the skin
- The high frequency handle is of particular importance. The Carlton handle is manufactured from material with a very high level of insulation to stop the current being transferred through to the therapist during a treatment.
- Dimensions: 25W x 35H x 13D cm
- Weight: 3.1kg

5866 Portable High Frequency CC2345/HF £290.00

Carlton Portable Ultra Visage CC2345/UV

Ultra Visage is now available in a portable vanity case.

- This micro current unit combines both galvanic with facial contour lifting for the optimum result. It is a low frequency mains operated electronic unit using pre-set timed variable wave forms
- Ultra Visage offers facial and body contour lifting by re-programming the muscle fibres, reducing and smoothing the fine lines and wrinkles on the neck
- Sagging breasts and upper arms will improve immensely along with skin tone and texture
- 1 Set of products
- 1 Packet disposable sponges
- 1 Video CD
- Dimensions: 25W x 35H x 13D cm
- Weight: 3.6kg

5864 Portable Ultra Visage CC2345/UV £845.00

Carlton Miniderm Facial Portable CC2345/MD

The most popular combination available in a portable vanity case

- The two functions of high frequency and galvanic treatment are contained in one compact unit that is supplied complete with full accessories for facial therapy treatment.
- The Miniderm has an electronic quartz minute timer to assist the therapist in planning her facial treatment programme
- Each of the functions is controlled individually, and the fascia panel incorporates a liquid crystal display to monitor the output of galvanic current together with a polarity changeover switch
- Each unit is supplied complete with four glass high frequency electrodes, a galvanic desincrustor, mini-ball and indifferent electrode with sponge cover. To complete the accessory set is a pair of stainless steel galvanic rollers with nylon brushes and a separate link lead to connect them to the output from the unit
- To avoid confusion, the polarity changeover switch relates to the polarity of the black lead feeding the accessories, for example if the polarity switch is set to negative then any accessory connected to the black lead is negative
- Dimensions: 25W x 35H x 13D cm
- Weight: 4.2kg

5867 Miniderm Facial Portable CC2345/MD £645.00

Galvanic

Silhouette G1 Facial Galvanic

- 2 year guarantee
- A distinctive design in facial galvanic equipment ensuring safe, deep cleansing during desincrustation plus smooth penetration of treatment product during iontophoresis treatments

Silk'n' IPL Hair Removal

NEW

**10+
Price On
Application**

- The Silk 'n' has been tried and tested over 12 months by leading US clinicians
- The Silk'n is a physician directed **intense pulsed light** device for patient hair removal in the privacy of their own home
- The first physician dispensed at home hair-removal device, inhibiting the growth of unwanted hair safely and effectively in the privacy of one's own home
- The Silk'n will provide practitioners with an extra boost of income and traffic it will also help maintain and compliment the treatments performed in the clinic. Using a patented HPL™ therapy, Silk'n' emits a low pulse of energy to the hair shaft to disable hair growth on the body without the risk of complications
- Treatment areas include: Legs, Underarms, Arms and Bikini line
- Safe, Easy and Quick
- When used according to the instructions given on the training DVD, the Silk'n is an easy treatment to self administer. With an added security mechanism which does not allow the HPL™ to fire without completely covering an area of skin, the Silk'n is safe, simple and with minimal discomfort
- Compared to other home use hair removal alternatives the large spot size, direct power and faster reps between each shot, large areas like legs can be done within 30 minutes

New-Life

NEW-LIFE

- New-Life is a safe, non-invasive device that employs B.E.A.M™ (Bio Electrical Acceleration Management), the very latest in aesthetic technology offering the ability to accurately imitate the body's bio-electrical process and send fully customisable electrical pulses through the nervous system
- B.E.A.M™ technology employs a unique management system that gives you full control. It allows you to combine, synchronise and make precise adjustments to all micro-parameters. This system allows the professional to stimulate and activate specific muscles or muscle groups, increase blood circulation, improve metabolism, and tone the body exactly as the client desires
- A "New-Life" treatment session is better than a workout in the gym with faster visible results and far less effort

New-Life Applications

- | | |
|------------------------------|----------------------|
| • Circumferential Reduction | • Body Re-Shaping |
| • Face Lifting | • Skin Rejuvenation |
| • Acne Clearance | • Fine Wrinkles |
| • Breast & Buttock Treatment | • Accu-Point Massage |
| • Lymphatic Drainage | |

- Ideal for people who want to shape up without effort. New-Life imitates the body's natural abilities to remove fat by physical exercise without having to go to the gym
- After just one treatment, your clients will likely notice an average reduction of two centimetres in body circumference

New-Life Benefits

- Safe and accurate - No skin damage. No pain
- Easy to use & operate - The state-of-the-art Human Machine Interface (HMI), equipped with a 10.4" colour touch screen, guides you smoothly through each stage of the treatment process
- Compact, lightweight, portable - Less than 20kg, complements your high-class decor and design, and easily carried in the boot of your car

Before

After

Free Training

LEASE AVAILABLE

- Non-Invasive
- Focused Low frequency cavitation system,
- Combined with led, effective for rejuvenation
- Targets localized fat: thighs, abdomen and buttocks
- 8-12 sessions to see results
- Cavitation is a process of ultrasounds to generate micro-cavities [bubbles-which grow up until implosion]
- Though the continuing implosion, the bubbles emit pressure wave in the liquids, which stimulates the activity between the adipocytes and the intercellular liquids, disintegrates the fat cell membrane
- Dimensions: 24.5 x 24 x 35.8 cm
- Weight: 5kg
- **Free Training in your own Salon/Spa**
