 **BELNATUR**
nature's skin care

All Belnatur® products are
an exclusive range of the
highest quality to
JUST CARE

History

Belnatur® was founded by Spanish pharmacist and chemist, Jose Maria Ribera, in 1979. Belnatur® was the first company to create treatments designed to solve specific problems of the skin. From the outset, Belnatur® products were conceived with a pharmaceutical approach and designated especially for beauty salons.

Principles

- RESEARCH** – Belnatur®'s constant investigation of the most up-to-date active ingredients on the market facilitates the launch of a new product line twice a year.
- QUALITY** – The Belnatur® laboratory is certified (IS 9002) and, under the constant supervision of in-house controls, Belnatur® can guarantee their products are consistently of the highest quality.
- NATURAL** – As the name implies, all active ingredients used in Belnatur® products are of Plant and Marine origin.
- RESULTS** – All Belnatur® products are thoroughly tested and clinically proven to give positive results.

Philosophy

The philosophy behind Belnatur®'s operation is simple – the future of the cosmetic industry lies within a new generation of natural products.

Contemporary women and men are growing increasingly aware of the benefits of organic ingredients. This trend is especially evident in any field of cosmetics that have direct contact with the human body. Belnatur® consider it their role, therefore, to provide beauticians with the products they need to accommodate all their clients' new demands.

Belnatur® around the world

Belnatur® is recognised domestically, in Spain, and globally as one of the most important producers of natural professional cosmetics. Having extended into the international market in the early 1980s, Belnatur® is now present in all major continents.

Belnatur® considers this growth essential to its progress; the knowledge acquired from beauticians around the world is key to the company's research and manufacture of products suitable for a global market.

Naturdermie Facial Treatment Masks

Range

Naturdermie hydro-plastic masks

A range of superior moisturising masks made of Alginates, Diatomaceous earth and selected Plant extracts that confer their particular effects to each mask.

Naturdermie Eye Contour Treatment

Eyes are the most expressive features of the face, but they are also the most delicate area that reveals the passage of time. Any upset (insomnia, pollution, stress) is shown on this area. Good care and maintenance are essential. The problems that appear on the eye contour area are: loss of elasticity and fluid retention, this causes crow's feet, eyelid flabbiness, under eye circles and bags.

BELNATUR Naturdermie eye contour treatment regenerates, moisturises oxygenates and firms.

Naturdermie Sensitive Skin Treatment

All skin types

Sensitive skins are those that become easily irritated due to: environmental factors, reaction to topically applied products, lifestyle, stress, emotions, diet, sleep and hormonal factors. The effects are similar in all cases: erythema, dryness, itching, redness and inflammation. The hydrolipidic layer is deteriorated, the corneous layer is thinner and more fragile.

BELNATUR Naturdermie Sensitive Skin treatment restore the protective barrier function of the skin, soothes irritation and burning, normalises the cutaneous moisture level.

Naturdermie Firming SP Treatment

All skin types

With the passage of time the skin's ability to produce its own elasin and other main components decreases, however, their destruction speeds up due to the action of external factors such as pollution and stress. Provides essential nutrients: proteins, vitamins, mineral salts and essential fatty acids.

Naturdermie Firming SP treatment recovers the elasticity, vitality, regenerates, moisturises, Stimulates and tones.

Naturdermie Re-Vital Mask Treatment

All skin types

Vitamins are essential for keeping the skin balanced. Today's lifestyle exposes the skin to stress and environmental aggression. It is essential a supplementary intake of vitamins that restores vital processes and encourages cell renewal to prevent premature ageing of the skin

Naturdermie Re-Vital mask treatment provides the vitamins that the skin requires. It is specially formulated for skins that are dehydrated, fine, wrinkled or asphyxiated.
