0562 Lift Professional CC2010 £1,650.00

CARLTON Professional

Carlton Ultra Visage CC2000

5 Year
Warranty

- A low frequency, micro current mains operated electronic unit
- Its specially designed programme uses pre-set, timed variable wave forms to complete the treatment
- Offers facial and body contour lifting by re-programming the muscle fibres, reducing and smoothing the fine lines and wrinkles on the face and neck
- Sagging breasts and upper arms will improve immensely, along with skin tone and texture
- To enhance the treatment and offer your client a complete facial, the Ultra Visage™ has combined within the unit desincrustation and iontophoresis with a collagen/elastin ampoule
- Dimensions: 28 x 20.5 x 14 cm
- Weight: 2.0kg

- **Supplied complete with:**
 - 2 x Cleanse Electrodes
 - 2 x Lifting Probe Electrodes
 - 2 x Metal Lifting Tips
 - 2 x Body Electrodes
 - 1 x Set of Connecting Cables
 - 1 x Packet Disposable Sponges
 - 1 x Set of Products
 - 1 x Video CD

0561 Ultra Visage CC2000 £950.00

Carlton Ultraderm – High Frequency & Galvanic CC2312

5 Year
Warranty

- Ultraderm, the very popular combination of high frequency and galvanic treatment, is contained in one neat and functional unit that is supplied complete with full accessories for facial therapy treatment
- Totally independent controls for each of its functions and is fitted with an LCD display to monitor the galvanic current, together with a polarity changeover switch
- Fitted with a quartz timer to assist the therapist in planning her facial treatment programme
- Dimensions: 28 x 20.5 x 14 cm
- Weight: 4.1kg

- **Supplied complete with:**
 - 4 x Glass High Frequency Electrodes
 - 1 x Cleanse Electrode
 - 1 x Indifferent Electrode with Sponge Cover
 - 2 x Roller Electrodes

0563 Ultraderm – High Frequency & Galvanic CC2312 £780.00

Carlton Body Galvanic CC2313

- Comprehensive multi-outlet unit for all professional treatments
- It has four independent outlets each with a digital read out monitor
- The unit is supplied complete with 8 body electrode pads having specially manufactured triple sponge pouch covers to eliminate any risk of galvanic allergy
- Also supplied with all connection leads and a set of elasticated body straps
- Dimensions: 28 x 20.5 x 14 cm
- Weight: 1.8kg

- **Supplied complete with:**
 - 1 x Set Elasticated Body Straps
 - 8 x 100mm Electrode Pads
 - 4 x 1700mm Connecting Leads
 - 8 x 120mm Sponge Pouches

0564 Body Galvanic CC2313

£650.00

Carlton Faradic CC2310

- A totally transistorised passive muscle exerciser with 10 outlets feeding 20 electrode pads
- Each outlet has an individual intensity control
- Advanced specification allowing the operator to not only select the duration of each contraction and relaxation, the frequency and the intensity but also to vary the pulse width giving far greater performance and a higher level of client comfort
- The operator can select from four pulse sequences giving either positive or mixed contractions on a regular or intermittent basis
- Fitted with a digital countdown timer also allows the therapist to see easily the duration of treatment time left
- For complete safety and comfort the CARLTON faradic has a reset button which prevents its use unless all controls have first been set to zero
- This reset circuit connects to a remote control client alarm to switch off the apparatus and sound a buzzer
- Dimensions: 38 x 25.5 x 17.5 cm
- Weight: 5.1kg

- **Supplied complete with:**
 - 2 x 25mm Facial Electrodes and Holder
 - 16 x 100mm Electrode Pads
 - 4 x 75mm Electrode Pads
 - 10 x 1700mm Connecting Leads
 - 14 x Elasticated Body Straps
 - 1 x Tape Seasure
 - 1 x Client alarm Switch

0565 Faradic CC2310

£975.00

Carlton Chroma Visage CC2320

ChromaVisage features a specially designed programme which uses pre-set, times variable wave forms during the treatment. Facial contour lifting is achieved by re-programming the underlying muscle fibres.

Colour Therapy, utilising LED lights, is a non-invasive treatment that activates skin cells with pulses of low-level, non-thermal light energy. Stimulating intercellular communication results in cell rejuvenation.

Colour Therapy & Microcurrent

- Introduce a New Results Driven Treatment
- Improve the Profitability of your Salon
- Increase your Turnover
- Features the renowned Ultra Visage micro current
- Includes Desincrustation and Iontophoresis
- Chromatherapy – four colours – four pulsed modes
- Quality at an affordable price
- British Made

Chromatherapy – four colours – four pulsed modes

3388 Chroma Visage

£1,395.00

Carlton Chromapeel CC2315

ChromaPeel features Diamond Dermabrasion using rotational diamond encrusted tips. Easy to use, no mess and low maintenance. A fantastic anti-ageing treatment leaving the skin feeling soft, silky and looking radiant. Used as a one off treatment or as a regenerative course. Also includes Brush / Sponge cleansing and Colour Therapy. Ideal for Facials, manicures and pedicures.

Colour Therapy, utilising LED lights, is a non-invasive treatment that activates skin cells with pulses of low-level, non-thermal light energy.

Diamond Microdermabrasion & Colour Therapy

- Latest innovative treatments
- Results driven anti-ageing
- Chromatherapy – four colours – four pulsed modes
- Increase your profit and turnover
- Lets your salon stand out from the others
- No crystals – no vacuum
- Low maintenance
- British Made
- No ongoing consumables

Chromatherapy – four colours – four pulsed modes

3387 Chromapeel

£1,495.00

CARLTON
Professional

ChromaSolo

The Colour Therapy treatment stimulates the skin's cells to facilitate change. The inclusion of four colours (red, green, blue and yellow) using LED lights and set at varying wavelengths offers a wide range of benefits. For example, green cools and reduces redness, blue reduces swelling and offers antibacterial effects for the treatment of acne, red rejuvenates and stimulates the lymphatic system, whilst yellow tones and smoothes the skin, as well as promoting the production of collagen.

Four pulsed modes are also included which allow the wavelengths to penetrate the skin at different levels. A highly versatile treatment, Colour Therapy can be incorporated into any treatment from Dermabrasion to a massage.

8311 ChromaSolo £395.00

Carlton Portable Ultra Visage CC2345/UV

Ultra visage is now available in a portable vanity case.

- This micro current unit combines both galvanic with facial contour lifting for the optimum result. It is a low frequency mains operated electronic unit using pre-set timed variable wave forms
- Ultra Visage offers facial and body contour lifting by re-programming the muscle fibres, reducing and smoothing the fine lines and wrinkles on the neck
- Sagging breasts and upper arms will improve immensely along with skin tone and texture
- 1 Set of products
- 1 Packet disposable sponges
- 1 Video CD
- Dimensions: 250W x 350H x 130D mm
- Weight: 3.6kg

5864 CC2345/UV £795.00

Carlton Portable High Frequency CC2345/HF

- This portable electronic high frequency unit is ideal for the mobile therapist, the vanity case having been constructed with spring clips in the recess of the lid to hold and protect the six electrodes that are supplied
- The sophisticated high frequency current changes 200,000 times per second and the electronic circuitry safety intensifies the voltage up to 150,000 volts with minimal amperage
- Because of this rapid oscillation there are no muscular contractions and the effect produced is either stimulating or soothing dependant on the chosen method of application
- Carlton high frequency treatment is of tremendous benefit, its primary action being thermal, to produce heat. The current aids the deeper penetration of products and has a marked germicidal action on the skin
- The high frequency handle is of particular importance. The Carlton handle is manufactured from material with a very high level of insulation to stop the current being transferred through to the therapist during a treatment.
- Dimensions: 250W x 350H x 130D mm
- Weight: 3.1kg

5866 CC2345/HF £280.00

Carlton Miniderm Facial Portable CC2345/MD

The most popular combination available in a portable vanity case

- The two functions of high frequency and galvanic treatment are contained in one compact unit that is supplied complete with full accessories for facial therapy treatment.
- The Miniderm has an electronic quartz minute timer to assist the therapist in planning her facial treatment programme
- Each of the functions is controlled individually, and the fascia panel incorporates a liquid crystal display to monitor the output of galvanic current together with a polarity changeover switch
- Each unit is supplied complete with four glass high frequency electrodes, a galvanic desincrustor, mini-ball and indifferent electrode with sponge cover. To complete the accessory set is a pair of stainless steel galvanic rollers with nylon brushes and a separate link lead to connect them to the output from the unit
- To avoid confusion, the polarity changeover switch relates to the polarity of the black lead feeding the accessories, for example if the polarity switch is set to negative then any accessory connected to the black lead is negative
- Dimensions: 250W x 350H x 130D mm
- Weight: 4.2kg

5867 CC2345/MD £625.00

Galvanic

Silhouette G1 Facial Galvanic

- 2 year guarantee
- A distinctive design in facial galvanic equipment ensuring safe, deep cleansing during desincrustation plus smooth penetration of treatment product during iontophoresis treatments
