

Introduction to DermLite Dermatoscopes

- Used for a **more accurate diagnosis** of early skin cancers
- Also known as Skin Surfacing Microscopy, a **non invasive diagnostic technique** for the observation of pigmented skin lesions, allowing a better visualisation of surface and subsurface structures. This diagnostic tool permits the recognition of structures not visible by the naked eye

There are some signs to look for when diagnosing whether a lesion is a melanoma or not. A common Dermoscopy rule is the ABCD rule which consider these 4 main factors:

Images have been taken using a Dermatoscope

Skin Cancer facts:

- Skin cancer is the most common cancer in the United Kingdom, with approximately 76,000 new cases reported each year
- It is estimated that the actual number of people with non melanoma skin cancer in the UK is at least 100,000 cases a year, because this type of cancer tends to be under reported
- About 2,000 people die from melanomas in Britain every year
- More than 9,500 cases of malignant melanoma were diagnosed each year
- Malignant melanoma incidence rates in Britain have quadrupled since the 1970s
- Malignant melanoma is the most common cancer in young adults (aged 15-34)
- Over the last twenty-five years, rates of malignant melanoma in Britain have risen faster than any other common cancer
- Early detection saves lives

DermLite Lumio Skin Examination Device

Lumio is the ideal device for general skin examinations where an in-depth, glare-free image of the skin is essential.

Lumio is a great tool for a variety of dermatological examinations: Varicose veins, pigmented skin lesions, hair follicles and much more.

- Permanent cross-polarisation
- 40 LED's bright-white
- 7.5cm 2 x lens
- AA batteries
- Stylish, ergonomic design
- Protective neoprene pouch

4709 DermLite Lumio Skin Examination Device £459.00

Surgical Skin Marking Pen

- Distinct marking
- Easily removed
- Ruler printed on pen

4717 Marking Pen	£1.00	£0.80

Dermoscopy The Essentials

This book aims to take the mystery out of dermoscopy and make this technique accessible for all medical clinicians

In clear and concise terms it explains the principles of this technique, how to perform a dermoscopy and how to interpret the results

Key authors: Peter Soyer & Giuseppe Argenziano

Contains over 375 colour dermoscopic images with clinical correlates

4716 Dermoscopy The Essentials	£48.00

DermLite Dermatoscope Training By Schuco

Schuco offer group training at your location for GPs & Nurses around the UK. Recent courses have been held in Cardiff, Glasgow, London, Manchester, Nottingham and Salisbury. These courses are delivered by a GP with a special interest in dermatology (GPSI) and a dermoscopy expert. Patients with skin lesions are brought in to allow you to practice your new diagnostic skills with real patients.

For further information, please call or visit
www.moleaware.org.uk

DermLite II Pro-HR Dermatoscope

DermLite II PRO HR is the world's brightest pocket Dermatoscope that you can attach to a camera right out of the box or use as a portable stand alone device

Camera not included, an adapter may be required.

- DermLite II PRO HR redefines the best in portable skin imaging: The most light in any portable dermatoscope, the large 2.5cm 10x lens, button activated light intensity adjustment, rechargeable lithium-ion battery, and camera-ready
- At the push of a button, you can activate 16 or 32 LEDs (light emitting diodes), for a maximum output of 1800 footcandles
- From superficial structures to deeper pigmentation, you see more detail at various depths than ever before using the groundbreaking, patent pending cross-polarisation
- Plus you have the best solution for imaging vascularity without contact, or visualising dry, overly scaly lesions with immersion fluids
- Retractable spacer with removable faceplate with scale
- Rechargeable lithium-ion battery
- Compact portable design
- Leather belt case

4712	DermLite II Pro-HR Dermatoscope	£795.00
4713	DermLite Hybrid Dermatoscope	£879.00
4714	DermLite II Fluid Dermatoscope	£795.00

DermLite Basic

- DermLite incorporates LED technology for bright-white, natural illumination
- 10x Hastings Triplet lens and advanced glare free cross-polarisation technology allows for a clear and deep view into pigmented lesions for detection of melanoma and dysplastic nevi in a matter of seconds
- Simple, quick and precise lesion for early detection - using epiluminescence lesion visualisation (without the use of oil)
- Long life Lithium Battery for up to 1200 examination
- Compact portable design
- No skin contact required
- Optional carry case available
- For other models in the range, including DermLite's than can attach to a camera please contact our sales team

2700	DermLite Basic	£349.00
2701	Carry Case - Belt Pouch	£36.50

DermLite Carbon

Provides instant toggle control over lesion visualisation from the superficial structures to the deeper pigmentation, by separately activating two groups of light-emitting diodes (LED), each with distinct polarisation: The first group of eight LEDs produces cross-polarised light, ideal for visualizing deep structures, whereas the second set of eight LEDs is linearly polarised, giving you a clear rendition of the skin surface.

- DermLite carbon's 16 LEDs are powered by the same highly efficient, long-lasting lithium battery that powers the original DermLite
- Supplied with one 2CR5 lithium battery and one belt pouch

4711	DermLite Carbon	£479.00

Heine Delta 20 Dermatoscope

- Multi-LED illumination, close to daylight
- High-resolution precision optical system
- Extended field of view
- Simple to use, with naturally positioned focus-wheel
- Contact plate with measuring scale
- 2.5v C size battery handle, 2 x C size batteries not included
- Supplied complete with 2.3cm contact plate with scale and compendium, oil in hard case

6964	Delta 20 Dermatoscope	£655.00
6806	Duracell C size Batteries, pk/2	£2.90

Heine M3000 Dermatoscope

- Compact dermatoscope, 10x focusable magnification
- Ergonomically shaped handle
- Optical contact plate
- Xenon illumination for very bright light
- Compendium of Dermatology
- May be used with oil, water or any clean contrast medium
- Requires 2 x AA size batteries

6963	M3000 Dermatoscope	£211.00
6982	Replacement M3000 Dermatoscope Bulb	£16.00
6805	Duracell AA size batteries, pk/4	£2.90

Riester ri-derma® Dermatoscope

Illumination of the examination field with 2.5V HL halogen illumination resembles natural daylight

- 10x magnification of the structure of the skin with focussing, achromatic lens.
- Skin-friendly and sterilisable contact plates with scale from 0 – 1cm for exact measurement of pigmented skin lesions available as an option
- Optional contact plate, flat non-reflecting and disinfectable
- Requires 2 x C size batteries - not supplied

5892	ri-derma® dermatoscope	£296.00
6806	Duracell C size batteries, pk/2	£2.90
5901	Replacement Bulb for ri-derma®	£22.80
5893	Contact plates for ri-derma®	£34.00

Daray MAGW100 Wood's Light

- Emits an ultraviolet light allowing clinicians to correctly inspect and diagnose a variety of conditions
- Remarkable ability to note skin colour changes and variations in skin tones
- 5x magnification
- 4 x 16W fluorescent lamps, providing 5,000 hours life per lamp
- Lightweight and easy to use
- Dimensions: 33H x 19.5W x 7D cm

6626	MAGW100 Wood's Light	£129.00
6627	Wood's Standard Fluorescent Bulb	£9.95
6628	Wood's Light UVA Bulb	£9.95

Compact UV Lamp

- Hand-held ultraviolet lamp
- Ideal for detection of skin disorders
- Incorporates standard torch and 13cm UV tube
- 4 AA batteries included

1023	Compact U.V. Lamp	£54.00
------	-------------------	--------

Stiefel Disposable Ring Curette

- Individually sterile packed in boxes of 10
- Choice of 4 or 7mm - please specify

5755 Ring Curette - specify size £35.50

Stiefel Disposable Biopsy Punch

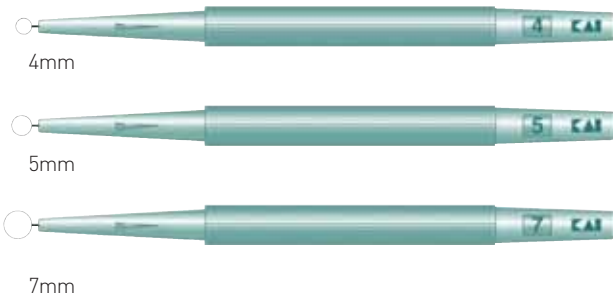

- Individually sterile packed in boxes of 10
- Choice of size: 2, 3, 4, 5, 6 & 8mm - please specify

5749 Biopsy Punch - specify size £29.50

KAI Disposable Dermal Curette

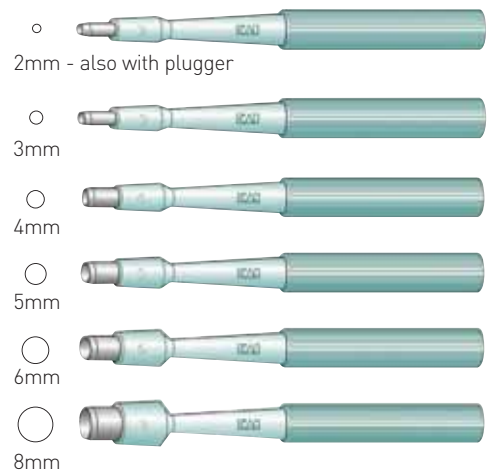

- Stainless steel cutting edge for soft or weak tissue
- Ribbed handle for sure grip and precise control
- Orientation mark on handle
- Sterile single use, pack of 20
- Choice of sizes: 4, 5 & 7mm - please specify

6721 Dermal Curette - specify size £27.50

KAI Disposable Biopsy Punch

- Stainless steel cutting edge for soft or weak tissue
- Ribbed handle for sure grip and precise control
- Sterile single use, pack of 20
- **With plunger: 2mm**
- **Without plunger: 2, 3, 4, 5, 6, & 8mm**

6717 Biopsy Punch 2mm with Plunger £36.50
6706 Biopsy Punch without Plunger - specify size £27.50

Kodak M341 HD Digital Camera

- 12 Megapixels
- 3 x optical, 5 x digital zoom
- 2.7" LCD screen
- Shooting Modes
- Scene Modes
- Memory capacity 24MB
- Weight: 115g
- Supplied with AA batteries, USB cable, wrist strap and manual

4765	M341 HD Digital Camera	£139.00
4766	SD 2GB Memory Card	£9.00
4767	SD 4GB Memory Card	£14.00

Kodak C140 HD Digital Camera

- 8.2 megapixel
- 6.25cm LCD
- 3 x optical zoom, 5 x digital zoom
- Blur reduction mode
- Memory capacity 16MB
- SD/SDHC card expansion slot
- Face detection
- Interface USB 2.0
- Dimensions: 9.14H x 2.19D x 6.24W cm
- Weight 130g
- Supplied with Kodak alkaline AA batteries

4764	C140 HD Digital Camera	£99.00
4766	SD 2GB Memory Card	£9.00
4767	SD 4GB Memory Card	£14.00

Hewlett Packard Photosmart D5460 Printer

- View, edit and print photos with or without a PC
- Print Lab-quality 10 x 15cm (4" x 6") borderless photos in as little as 30 seconds
- Memory card reader for Photo transfer to PC
- Print documents up to 30 pages per minute
- One touch colour copy without a PC - ideal for reprinting old photos
- 5 x colour ink system for high quality image printing
- LCD screen to select and preview image

4768	Photosmart D5460 Printer	£109.00
------	--------------------------	---------

Kodak Memory Cards

- Increases digital camera's onboard memory and capacity
- Compatible with leading digital cameras and the Kodak Easyshare System

4766	SD 2GB Memory Card	£9.00
4767	SD 4GB Memory Card	£14.00
