

Daray BSD100 Foetal Doppler

DARAY
HEALTHCARE PRODUCTS

- LCD with backlight, for use in all lighting conditions. Displays FHR pulse, FHR value, battery status and volume
- Three working modes; Real-time FHR display, mean FHR display & manual count display
- DSP technology assure accurate and reliability of FHR detection
- 2 MHz high sensitivity continuous wave waterproof probe
- Ergonomic design
- Built-in speaker
- Audio output socket
- Supplied with protective case and ultrasonic gel

6625 Daray BSD100 Foetal Doppler with 2Mhz Probe £199.00

Sonotrax Standard & Pro Portable Doppler

- Choice of two models; Standard or Pro
- High quality multifunctional Doppler for foetal heart rate measurement and arterial assessment - Pro model only
- Both models are supplied with 2MHz probe
- Waterproof probe with Pro model
- Integral speaker and sound output interface
- Auto Off
- Measuring range 50-120bpm
- Standard model does not feature LCD display and transmits Foetal Heart Beat
- Pro model has LCD display showing FHR real time, average FHR and manual calculation
- Pro model offer additional probes for arterial assessment, 3MHz, 4MHz or 8MHz please specify when ordering
- Dimensions: 13.5H x 9.5W x 3.5D cm
- Weight: 180g with battery

Sonotrax Pro Portable Doppler with 2MHz Waterproof Probe

Unbeatable Value

6832	Standard Doppler with 2MHz Probe	£139.00
6833	Pro Doppler with 2MHz Waterproof Probe	£179.00
6727-3	Pro 3MHz Waterproof Probe	£119.00
6727-4	Pro 4MHz Waterproof Probe	£119.00
6727-8	Pro 8MHz Waterproof Probe	£119.00

Aquasonic Gel

- Ultrasound will not travel through air
- Transmission gel is required to eliminate surface air
- The gel should completely cover the probe head and may be applied to the patient's skin

7428 Aquasonic Gel 250ml £3.25

Servoson Ultrasound Gel

- Water based gel
- Non greasy
- Formaldehyde free
- No micro bubbles
- pH 5.6, dermatologically tested
- Anti bacterial

7427 Ultrasound Gel 250ml £2.25

Aquasonic-100 Ultrasound Gel Sachets

NEW

- Sterile Pack
- Designed for single patient
- 20gr sachets

8181 Ultrasound Gel Sachets, pk/48 £59.50

Huntleigh Diabetic Foot Assessment Kit Dopplex® DFK

The Diabetic Foot Assessment Kit provides the professional vascular or diabetes specialist with a system to measure pressure index (ABPI) and toe brachial pressure index (TBPI)

Complete package includes:

- Compatible with DR3 Software
- Bi-directional Doppler (MD2) and probe (VP8HS)
- Neuropen (includes 10g monofilament)
- Trigger operated sphyg with a range of latex free cuffs (arm/ankle, large and small toe)
- Educational DVD
- Hard carry case
- Set of guides (ABPI/TBPI)
- Headphones
- Box of Neuropen tips

0987 Dopplex DFK Kit

£810.00

Huntleigh Peripheral Arterial Disease Assessment Kit Dopplex® PAD

HUNTLEIGH

The PAD kit includes all the items required to undertake a basic assessment on patients at risk of arterial disease.

Complete package includes:

- Dopplex D900 non-directional Doppler
- High sensitivity widebeam EZ8 probe
- Standard arm/ankle cuff
- Sphygmomanometer
- ABPI guide
- Educational CD
- Large Carry Bag

2691 Dopplex PAD Kit

£480.00

Additional vascular clinical and educational support is available at www.huntleigh-diagnostic.com

AnkleBrachialPressureIndex Kit Dopplex® ABPI

The ABPI Kit contains all the items required to undertake a full ABPI assessment on regular or oedematous limbs and includes two Doppler probes and cuffs. The Easy8 probe helps to locate vessels and also maintain vessel contact during inflation and deflation procedures, and the VP5 is ideal for oedematous limbs.

Complete package includes:

- Compatible with DR3 Software
- Dopplex MD2 bi-directional Doppler
- High sensitivity widebeam EZ8 8MHx probe
- High sensitivity VP5HS 5MHx probe
- Large arm/ankle cuff
- Standard arm/ankle cuff
- Sphygmomanometer (quick release)
- ABPI Guide
- Educational CD
- Large carry bag

2690 Dopplex ABPI Kit £900.00

Dopplex® DR3 Software Package

Dopplex Reporter Package is a unique vascular reporting software package for use in conjunction with the Dopplex RD2, MD2 and MD200 units.

Applications available in version 3 include:

- Upper and lower limb arterial pressure and flow studies
- Lower limb venous studies
- Extracranial blood flow studies
- Penile pressure and flow studies
- Podiatry and chiropody studies
- Pre/post operative studies
- PPG venous studies (Rheo only)
- Doppler waveform parameter calculations
- Compatible with Windows 2000, Vista, XP & Windows 7
- USB and serial cables included

0989 Dopplex DR3 Software Package £340.00

Huntleigh Dopplex® Printa II

Dopplex Printa II package is a portable, mains/battery thermal printer, which provides documentation of bi-directional Doppler waveforms when used with Dopplex MD2, RD2 and MD200.

- PPG curves can also be documented when used with the Dopplex RD2 unit

0988 Dopplex Printa II £475.00

0991 Dopplex Printa II Paper, pack of 2 rolls £12.85

HUNTLEIGH

Mini Dopplex® D900 Vascular Doppler

Non-directional Doppler

The Dopplex® D900 is a low cost audio only, non-directional Doppler, principally used for ABPI measurements by community nurses and doctors in their role of leg ulcer management.

- Clear audio sounds of blood flow or fetal heart
- Enhanced battery management
- Compatible with the complete range of vascular probes
- When used with Easy 8 probe it is excellent for the infrequent user in locating brachial and pedal arteries
- Large carry bag
- Headphones included

0979	Mini Dopplex D900 without Probe	1	£210.00
7428	Aquasonic Gel 250ml		£3.25
7427	Ultrasound Gel 250ml		£2.25

Super Dopplex® SD2 Vascular Doppler

Bi-directional Doppler

The Dopplex® SD2 provides bi-directional vascular information to the vascular professional including the display of flow direction. It is ideal for clinical specialists wishing to conduct advanced Doppler studies.

- Compatible with all high sensitivity vascular probes (audio only with OP2 and OP3)
- Ideal for ABPI assessment
- Provides bi-directional blood flow information
- Enhanced stereo audio output
- Large carry bag
- Stereo headphones included Dopplex® Vascular Doppler

0980	Super Dopplex SD2 without Probe	2	£330.00
7428	Aquasonic Gel 250ml		£3.25
7427	Ultrasound Gel 250ml		£2.25

Multi Dopplex® MD2 Vascular Doppler

Bi-directional Doppler

The Dopplex® MD2 is one of the most advanced pocket Dopplers on the market. It provides the ability for high level vascular assessment, and is ideal for the detection of peripheral arterial disease. When used with the high sensitivity vascular probes it provides quality bi-directional blood flow information. It can be linked to the Dopplex Reporter software package for high quality waveform reports or the Dopplex Printa II for single waveform recordings.

- Connects with all High Sensitivity probes - 2, 3, 4, 5, 8, 10 MHz
- Provides bi-directional blood flow information and documentation
- Integral battery management
- Enhanced audio output
- Large carry bag will hold sphyg and cuffs

0981	Multi Dopplex MD2 without Probe	3	£440.00
7428	Aquasonic Gel 250ml		£3.25
7427	Ultrasound Gel 250ml		£2.25

All above dopplers exclude the probe please select probe

Vascular Doppler Probes

EZ8 Wide Beam 8MHz Probe

Allows easy location of vessels. Easier to maintain vessel contact during inflation and deflation

0986	£243.00
------	---------

VP4HS 4MHz Probe

For detection of deep lying vessels

0982	£205.00
------	---------

VP5HS 5MHz Probe

For oedematous limbs and deep lying vessels. Ideal adjunct to Easy8 for ABPI measurements

0983	£205.00
------	---------

VP8HS 8MHz Probe

Detection of peripheral vessels and calcified arteries

0984	£205.00
------	---------

VP10HS 10MHz Probe

Detection of smaller vessels in specialist superficial applications

0985	£205.00
------	---------

Sonicaid FD2

HUNTLEIGH

- Rate display Doppler with interchangeable 2MHz for general obstetric use or 3MHz probe for detecting the fetal heart in early gestations and 5 other probes for vascular applications
- An integrated data output allows a hard copy print out of the FHR to be obtained when connected to the Dopplex Printa II printer
- Real time fetal heart rate data output
- Easy clean transducer for improved infection control
- Probes not included, please see below for probes

Sonicaid FD2 exclude the probe please select probe

5975	Sonicaid FD2 without Probe	£251.00
7428	Aquasonic Gel 250ml	£3.25
7427	Ultrasound Gel 250ml	£2.25
8181	Ultrasound Gel Sachets, pk/48	£59.50

Sonicaid MD200

A desktop rate display Doppler, for both vascular and obstetric use

- Ideal for, Vascular Assessment Measuring ABPI & Antenatal Screening - perfect for Antenatal non stress testing
- Bi directional vascular indication and stereo audio
- Mains and rechargeable battery
- Storage compartment for gel, probes and cable
- Full auto correlated FHR display and audio
- Digital interface for connection to a PC running Dopplex Reporter Software
- Probe not included, please see below for probes

Sonicaid MD200 exclude the probe please select probe

5972	Sonicaid MD200 without Probe	£620.00
7428	Aquasonic Gel 250ml	£3.25
7427	Ultrasound Gel 250ml	£2.25
8181	Ultrasound Gel Sachets, pk/48	£59.50

Obstetric Doppler Probes

2MHz Probe
Obstetric for fetal heart detection

3MHz Probe
Obstetric for fetal heart detection in early gestation

5977	£205.00	5978	£205.00
------	---------	------	---------

Vascular Doppler Probes

EZ8 Wide Beam 8MHz Probe
Allows easy location of vessels. Easier to maintain vessel contact during inflation and deflation

0986 £243.00

VP4HS 4MHz Probe
For detection of deep lying vessels

0982 £205.00

VP5HS 5MHz Probe
For oedematous limbs and deep lying vessels. Ideal adjunct to Easy8 for ABPI measurements

0983 £205.00

VP8HS 8MHz Probe
Detection of peripheral vessels and calcified arteries

0984 £205.00

VP10HS 10MHz Probe
Detection of smaller vessels in specialist superficial applications

0985 £205.00

Sonicaid D920

HUNTLEIGH

- Audio Dopplers with fixed 2MHz Waterproof Probe
- High sensitivity ultrasound for improved ease of use
- Suitable for use in a water birthing environment
- Easy clean transducer for improved infection control

Sonicaid D920 includes 2MHz Probe

5973	Sonicaid D920	£270.00
7428	Aquasonic Gel 250ml	£3.25
7427	Ultrasound Gel 250ml	£2.25
8181	Ultrasound Gel Sachets, pk/48	£59.50

Sonicaid One

- Rate Display Doppler with Fixed 2MHz Probe
- Its high sensitivity and wide beam coverage enable quick location of the fetal heart from early gestation to full term
- Integrated probe and cable storage
- Pocket ergonomics
- Large fetal heart rate display

Sonicaid One includes 2MHz Probe

5976	Sonicaid One	£338.00
7428	Aquasonic Gel 250ml	£3.25
7427	Ultrasound Gel 250ml	£2.25
8181	Ultrasound Gel Sachets, pk/48	£59.50

Sonicaid FD1/FD3 with fixed 2MHz or 3MHz Probe

- FD3 with fixed 3MHz waterproof probe rate display doppler provides detection from early gestation right through to delivery, even on mums with raised BMIs
- FD1 with fixed 2MHz waterproof probe rate display doppler provides detection throughout pregnancy, even on mums with raised BMIs
- Active noise reduction for crystal clear fetal heart sounds
- Suitable for use in a water birthing environment
- Easy clean transducer for improved infection control

Sonicaid FD1 includes 2MHz Probe

Sonicaid FD3 includes 3MHz Probe

5974	Sonicaid FD1 with fixed 2MHz probe	£352.00
5981	Sonicaid FD3 with fixed 3MHz probe	£352.00
7428	Aquasonic Gel 250ml	£3.25
7427	Ultrasound Gel 250ml	£2.25
8181	Ultrasound Gel Sachets, pk/48	£59.50
