6916-04	Single Use 504 Needle/Cold Point	4	£19.50
6916-08	Single Use 508 Straight Cutter	5	£19.50
6916-10	Single Use 510 Coagulation Ball	6	£19.50

Schuco 120 Electrosurgical Unit

Schuco 120 is an electrosurgical unit for minimally invasive surgical procedures – ideal for the treatment of a variety of skin conditions. This unit will give you the flexibility of cut, coagulation as well as a combined cut and coagulation setting.

- Pure cut, CUT
- Coagulated cut, BLEND
- Superficial coagulation, COAG FORCED
- Deep coagulation - without carbonisation, COAG SOFT
- Bipolar coagulation, BIPOLAR with adaptor

Supplied complete with the following re-usable accessories:

- Cable for neutral plate disposable/5365
- Assorted electrodes 5cm, pack of 10
- User manual
- Footswitch
- Power lead 2 metre
- Re-usable handle with finger switches
- Steel neutral electrode size 12 x 16 cm

4720	Schuco 120 Electrosurgical Unit	£1645.00
------	---------------------------------	----------

Acu-Evac IE II Surgical Smoke Evacuator

Hyfreacator not included

Invest in the safety of your staff and patients

Advanced, patented, high efficiency filtration system for eliminating surgical smoke plume which may contain hazardous bio-aerosols, live and dead cellular matter (including blood fragments & viruses). Surgical smoke plume can also be carcinogenic, which is another key reason to invest in the Acu-Evac to protect patients and staff.

- Can be used with both Hyfreacator 2000 and Schuco 120 Electrosurgical Unit - a mounting bracket is required for the Schuco 120
- Eliminates unpleasant odours associated with electro surgery or cautery
- Powerful, portable, easily stored
- Boom arm allows single operator use, with both hands free to perform skin surgery
- System comprises of one of each:- Acu-Evac IE II machine, Main Filter, TX Nozzle, all tubing, footswitch, mobile stand & boom arm

4729	Acu-Evac IE II Surgical Smoke Evacuator	£1995.00
7537	Acu-Evac IE IMounting Bracket for Schuco 120	£170.00

Hyfrecator 2000 Electrosurgery Unit

Now includes Patient Plate

- Ideal for the treatment of Benign Moles, Common viral warts, Seborrhic warts, Skin tags, Solar keratoses, Spider naevi, Telangiectasias, Venereal warts, etc
- Complete all-in-one ready-to-use diathermy machine
- Remote power control, saving procedure time
- Allows 3 separate power settings to be stored - low power, hi power and bipolar
- Precise rapid destruction of all types of cutaneous lesion - both superficial and deep
- Controls surgical bleeding simply, quickly and effectively
- Delivers rapid, precise destruction of all types of cutaneous malformation, including telangiectasia and unwanted hair growth
- Provides controlled tissue coagulation and precise surgical haemostasis using bipolar coagulation
- Small lesions can be treated without anaesthesia
- Fingertip control for increasing and decreasing power
- Digital power display
- Pack includes : reusable hand switching pencil, starter box of non-sterile electrolase tips blunt & sharp, patient plate, wall mount kit, operators manual and training CD

Hyfrecator 2000FS

- Specification as above but with footswitch making this model ideal for delicate procedures. The operator can control power on/off from the foot pedal rather than the handpiece

Hyfrecator 2000FSB

- Specification as above but with footswitch and bipolar forceps for coagulation and haemostasis

2704	Hyfrecator 2000 with Switching Handle	1	£1070.00
4721	Hyfrecator 2000FS with Foot Switch		£1225.00
4722	Hyfrecator 2000FSB with Bipolar Forceps & Footswitch		£1375.00

Hyfrecator Accessories

Cryospray 59

**Cuxson
Gerrard**

- Dispensing head designed for greater control
- Delivers up to 60 applications
- Designed to freeze tissue to temperatures of around -59°C
- Includes 12 cotton wool tipped applicators for the treatment of small verrucas
- 300ml

0460 Cryospray 59

£34.25

Dermafreeze™

- Controlled delivery of an aerosol based cryogen, freezes down to -50°C
- Cryofunnel™ allows liquid nitrogen to be delivered precisely to verrucae, warts, skin tags, papillomas and other benign superficial skin growths
- Cryofunnel™ triangles provides circular openings of 5mm, 10mm and 15mm
- For smaller areas foam tipped applicators of 2mm and 5mm can be used
- Up to 80 individual treatments from each can
- Dermafreeze™ 200ml supplied with 30 x Cryofunnel™ triangles, 40 x Cryotips™ - 20 each 2mm and 5mm

7564	Dermafreeze™ Kit	£49.95
3099	Dermafreeze™ 200ml Refill Can	1 £29.95
3100	Dermafreeze™ Cryofunnel™, pk/30	2 £9.95
3101-2	Dermafreeze™ Cryotips™ 2mm, pk/20	3 £9.95
3101-5	Dermafreeze™ Cryotips™ 5mm, pk/20	£9.95

CryoSuccess Portable Cryosurgery Pencil

CRYOSUCCESS

- A simple and effective handheld Cryotherapy device for accurate treatment of skin lesions making it ideal for minor surgery applications
- CryoSuccess incorporates an improved safety design which allows easy on/off fitting of the cartridge
- **Cartridge provides 30-40 treatments, cost per treatment ~ £1 or less**
- Simple pencil type grip for easy use & very accurate application
- Freezes to -89°C and to a depth of 3mm
- Level of cold generated adjusted by the rate at which the button is depressed
- The device can be kept in a drawer ready for use at any time
- Cartridge can be removed at any time - for longer term storage or transport - and then rapidly reconnected
- The tip is made from a soda clear glass capillary with a diameter of 80 um.

- To apply the cryogenic liquid gas, the dispenser tip is touched against the skin surface so that the escaping liquid gas directly touches the surface before a gaseous phase transition takes place. The liquid gas travels at a mean speed of 40 m/s in a phase stable state (gaseous state), enabling cells to be destroyed accurately and safely. For example a target area with a diameter of 10 mm and a depth of 3 mm can be frozen to -40° within 12 seconds which will ultimately result in absolute cell destruction
- Using Nitrous Oxide cartridges avoids all of the storage and transport problems associated with liquid nitrogen.
- Ideal for home visits, nursing homes, etc.
- Comprises: 1 x CryoSuccess (with standard 1mm application tip & protective cap), 1 x cartridge, 1 x pin, 1 x instructions for use, all contained in an ABS protective case

2702 CryoSuccess

£595.00

Replacement CryoSuccess Cartridge

- Cartridge provides 30-40 treatments
- Cartridge can be safely removed from the head in between clinics, which prevents leakage

For CryoAlfa cartridges please enquire

2703 CryoSuccess Cartridges, 23.5g inbuilt filter

£29.50

Liquid Nitrogen Spray Jet Dispenser

FREE
CARRY CASE
INCLUDED
Worth £45.00

- Used to treat a wide range of benign and malignant skin lesions
- Delivers a precise fine spray of liquid nitrogen to the site of the lesion in a reproducible manner
- Flask available in two sizes; 330ml or 450ml
- Supplied with four spray tips and lance
- Complete in lockable robust carrying case
- Additional probes and safety shield & gloves available
- Service and repair facility

Precise MS Skin Stapler

3M

The skin stapler offers numerous benefits over sutures:

- Significantly quicker, simpler to use and safer than sutures
- Better cosmetic effect
- 5 x times faster than suturing
- No risk of accidental stick injury
- Less painful than sutures
- Easy to remove

Pre-loaded with 5 staples
Suitable for simple, recent, open, unbruised wounds. Particularly useful for scalp wounds as they do not catch on surrounding hair and are easily identifiable at the time of removal

7392	Precise MS Skin Stapler	£8.10
------	-------------------------	-------

Skin Staple Remover SR-1

3M

- Suitable for use with most brands of skin staples
- Sterile packed for single use

7393	Skin Staple Remover SR-1	£3.60
------	--------------------------	-------

Stitch Cutter Blade

- Traditional carbon steel sterile standard stitch cutter
- Rounded bull nose tip ensures there is no damage to the skin whilst the surgical edge cuts through the suture
- Pack of 100

NEW

7590	Stitch Cutter Blade	£9.00
------	---------------------	-------

EpiGlu Skin Adhesive

- Pain free
- Single patient use
- Holds wound edges even under tension e.g. around joint areas
- The first layer polymerises within seconds then multiple layers close and protect the wound from infection
- Easy to apply
- Results in almost no keloid scarring
- Patients can resume daily personal hygiene - washing, showering
- No anaesthetic required
- Pack of 10

4719	EpiGlu Skin Adhesive	£54.70
